I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I couldn't be more satisfied with the service I have received from Madison Pharmacy Assoc. I have been helped beyond compare while taking a Natural estrogen individually compounded for my needs during Menopause. The synthetic HRT had many side effects - one of which required me to have breast surgery to remove calcifications. This prescription approved by my Dr. allows me to live normally without side effects such as sleeplessness and anxiety. I strongly oppose the government's attempt to restrict my ability to obtain medication my Dr. has prescribed and has made a difference in my life and health!
